

Measles Alert

Okinawa, JAPAN

Please call before
coming to the hospital.

The Japan Baptist
Hospital

Tel:075-781-5191

Feel ill?

You might contain contagious virus called "measles"
If you're not fully vaccinated (2nd dose),
you have a risk of infection.
Please "call" hospital before you visit to avoid
exposing to other people such as babies who
are too young to be immunized.

《Symptoms》

Early phase : "Flu-like" symptoms

- Cough
- Runny nose
- Red, watery eyes

Then, high fever , red rash on the body

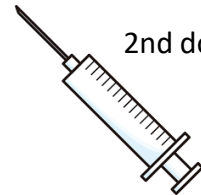

Make Sure You and Your Child are Fully Immunized

1st dose

no history? Unknown?

2nd dose

If you are not fully immunized / no history of measles and
exposed to a confirmed case, you will be advised
to stay at home and monitor your health.
Please consult public health authority
for further information.
